FRI - SAT 12 - 8PM
SUN & MON CLOSED

“Erosion Revelation,” is a group of images that speak about the natural processes of decay and evolution as revealed through the structural components that form the iconic architecture that characterizes Venice. These highly detailed photographs

of bricks and other common building materials highlight the inevitable effects of time, and ask us to consider both the radical changes occurring in our environment and our futile quest to control the uncontrollable.”

LUST FOR WOOD

Furniture, structure, skin, art – all have been made of wood since hominids had opposable thumbs.

2PM MARCH 14, 2009
AT FAIRHAVEN FURNITURE

In America, wood is the “default” material for our houses. Wood is literally alive in our landscape and is a “living” material when used to make something, with enormous variability in its appearance, characteristics, and uses.

THE TRUTH ABOUT GREEN ARCHITECTURE AND INVESTING

Learn how to put your money where your values are by investing green.

6PM APRIL 22, 2009 (EARTH DAY)
AT GUILFORD ART CENTER
411 CHURCH STREET, GUILFORD, CT

Duo Dickinson asks, “But beyond using ‘plantation grown’ bamboo flooring and ‘salvaged’ glass in our countertops, what is ‘green’ when it comes to our homes?” In addition to building green, learn about how to put money where your values are by investing green with Anthony Eames, Calvert Mutual Funds.
